FIVE YEAR PERSPECTIVE PLAN

Prologue:

Dadasaheb Tirodkar Educational Academy (DTEA), established in 2009 with a mission of educating youth to graduate level. In July 2011, DTEA started Degree College with a name of "Dadasaheb Tirodkar College of Commerce and Science". By the year 2014-15 "Dadasaheb Tirodkar College of Commerce and Science" has been nomenclatured as renamed to "Padmashree Babasaheb Vengurlekar Mahavidyalaya".

The Institute started two programs viz. B.Sc. Information Technology and B. Com. Banking and Insurance in the year 2011-12. In the academic year 2019-2020 the institute added (we have expanded our intake by starting) two more UG programs i.e. B.Sc. Computer science and B. Com (Regular) to enable local students completing 12th (HSC) science and commerce from our sister institute "Dadasaheb Tirodkar Junior College, Pandurtitha.

Presently with a significant help by our patrons, donors and wellwishers; we have a very good infrastructure including spacious classrooms and laboratories, separate department wings, boys and girls common rooms, gymkhana, adequate power and water supply etc. Regarding academic needs, we have updated software and hardware, enriched library with more than 3000 titles and hundreds of catalogues, e journal subscriptions, etc. Our students are fortunate that they have been provided with different platforms for extracurricular activities. Students proactively participate in various cultural activities at Regional, university levels. Our students have bagged laurels in DLLE, Cultural activities at the University level sparkled in sports too, at state as well as university level championships.

Faculties are backbone of institute and we have a team of teachers with the necessary minimum qualifications as well as experience. This team has always worked with dedication for the betterment of institute and our academic result is the mirror for its performance. During last five years, we have maintained 100% results of our outgoing batch.

Without team of non-teaching staff, it is impossible to execute any task. We have an adequate count of non-teaching staff consisting of the librarian, office staff, laboratory assistants and peons.

The year 2020-21 is a milestone of 10 years. Considering changing trends in the field of education, it is essential to provide an education which will not make students only qualified but employable.

During these 10 years, we have certainly achieved success at various fields and now looking ourselves as stable one. Now it would be the right time to set some goals so as to achieve educational excellence. A strong support from all stakeholders including donors, well-wishers will certainly empower to achieve excellence.

Short Term Goals:

On Completion of the 10 young years of the institute. We have planned:

1. Submission of SSR for NAAC accreditation during 2023-24.
2. To apply for the permanent affiliation. (before 2024-25)
3. To recruit teaching and nonteaching staff and seek IAS approval for the sanction of posts.
4. To strengthen the placement cell. The Institute will identify potential recruiters for placement and arrange training and internships. The necessary MoUs can be signed within DTEA and industry/ training partner.

Long Term Goals:

As a need of time these long term goals are defined at DTEA level and PBVM level.

Long Term Goals of DTEA:

1. **To start private Industrial Training Institute (ITI)**
Considering employability rate of students, it is necessary to make them skilled one. In the years, DTEA has a vision to start an ITI with trades having industry demand. The construction of shade of around 4000 square feet has been undertaken which can be utilized for the same. The trades can be selected in such a way that those will be as like add-on courses for our existing students as well as can be accommodated in our existing infrastructure.
2. **To develop smart classroom for webinars an e-learning.**
3. **To start student training center**
This training center is to organize add-on courses like
For Commerce Stream: Tally, Soft skill, English Speaking.
